R 2.1 Closing the Preparation Gap

Location: Room 320B
 Presenter(s): Matt Gandall, Executive Vice President for Achieve Incorporation

There is a well documented "preparation gap" between what we expect students to learn in high school and they really need to be successful in college, leaving too many college students under-prepared, under-credited, and unlikely to earn a degree. This session provides a national perspective on the root causes of the "preparation gap" and how a multi-year initiative, the American Diploma Project, is helping states close the preparation gap. Thirty-five states, including Oklahoma, are involved in this effort to dramatically change the policy landscape.

Note: This can be considered as an OSEMI Session
